

When to Recommend CBD Mega™

Stiff/Sore Joints: mobility-related

Recommendations	• Joint Support Plus 	AND	• CBD Mega™ 
Reason	<p>Joint Support Plus and CBD Mega™ work synergistically to achieve the best result for your pet. Joint Support Plus is formulated specifically to address the different components of joint health. It contains:</p> <ul style="list-style-type: none">• Glucosamine, Green-Lipped Mussel, Chondroitin Sulfate and Hyaluronic Acid which promote thick, viscous joint fluid to absorb concussion within the body or joints. This fluid can dissipate over time and when it's gone, the body can't make more — without this fluid, bones lose the cushioning around them and will rub together• MSM helps to manage aches and discomfort associated with normal everyday activity• Yucca, Turmeric, Corydalis and Boswellia are herbs that help to maintain joint, bone and supporting soft tissue health while managing discomfort caused by normal, everyday activities. <p>CBD Mega™ augments Joint Support Plus, supporting a normal inflammatory response — taking your pet's health to the next level.</p>		

Anxiety

Recommendations	• Chillax Calming Chews (hemp) 	AND /OR	• CBD Mega™ 
Reason	<p>Chillax contains natural active ingredients targeted to help your pet with their anxiety in different ways. CBD Mega™ not only contains 15 mg of Broad Spectrum Hemp Extract per chew, it also contains natural ingredients specifically targeted to help with anxiety as well: Passion Flower (for calming and relaxation), Valerian Root (for relaxation and sleep) and Ginger Root (for nausea).</p>		

Aches/Occasional Discomfort

Recommendations	• Aches Away Chews (hemp) 	AND /OR	• CBD Mega™ 
Reason	<p>Aches Away is a supplement that should be used on an “as needed” basis for occasional aches and discomfort. CBD Mega™ augments the affects of the Aches Away supplement. Depending on the level of discomfort, these supplements can be used together or on their own.</p>		

When to Recommend CBD Mega™

Digestive Issues • Loose Stool/Diarrhea

Recommendations	<ul style="list-style-type: none"> • Gastro Pro Plus 	AND	<ul style="list-style-type: none"> • CBD Mega™ 
Reason	<p>Gastro Pro Plus should always be the 'go to' for digestive issues. This 4-in-1 product (probiotics, prebiotics digestive enzymes and gut-soothing herbs) is the powerhouse to get your pet's gut healthy and functioning properly.</p> <p>CBD Mega™ helps the gut by supporting the normal inflammatory response in the body as well as supporting the immune system, which fights off the bad bacteria. CBD has also been found to stabilize the digestive system. This powerful combination can't be beat for overall gut health.</p>		

Seasonal Allergies • Food Allergies • Itching from Fleas • Itching (Other) • Red/Irritated Skin • Hot Spots • Itchy/Smelly Ears

Recommendations	<ul style="list-style-type: none"> • Wild Alaskan Salmon & Pollock Oil or Salmon Oil 	AND	<ul style="list-style-type: none"> • Allergy Support Plus 	AND	<ul style="list-style-type: none"> • CBD Mega™ 	AND/OR	<ul style="list-style-type: none"> • Skin Support Plus (dogs only) • Ear Wash & Ear Dry • Flea & Tick Spray 
Reason	<p>The goal is to stop the itch/scratch cycle so your pet doesn't break the skin while scratching, which can lead to infection. The Omega fatty acids in the Wild Alaskan Salmon & Pollock Oil is most beneficial for overall skin and coat health (you will see an immediate difference within 2 weeks of using it).</p> <p>Allergy Support Plus is an amazing supplement with highly beneficial herbs that help stop the itch from the inside out (this product takes about 30 days to build up in your pet's system).</p> <p>CBD Mega™ helps keep their Endocannabinoid System in balance by supporting a normal inflammatory response. It also has antimicrobial and anti-itch qualities.</p> <p>Skin Support Plus will stop the itch immediately when sprayed directly on the affected area.</p> <p>Ear Wash & Ear Dry should be used if they are scratching at their ears, or their ears are red, waxy or smelly. And Flea & Tick Spray should be used as a preventative, as well as to rid your home of fleas and ticks.</p>						

Cognitive Issues/Aging in Senior Dogs

Recommendations	<ul style="list-style-type: none"> • Brain Drops (senior dogs only) 	AND	<ul style="list-style-type: none"> • CBD Mega™ 
Reason	<p>Brain Drops is formulated with natural ingredients that are known to help with cognitive function.</p> <p>CBD Mega™ can help change the way a dog perceives pain and help manage other symptoms such as sleeplessness and nausea. It can help older pets battle illness by stimulating their appetite, keeping them eating the food and nutrients that are essential for aging pets, and giving them the strength to fight off illness.</p>		

When to Recommend CBD Mega™

Cognitive Issues/Aging in Senior Cats

Recommendations

- CBD Mega™

Reason

As cats age, they may battle illness. CBD has the ability to stimulate appetite and keep them eating the food and nutrients that are essential for aging pets, and give them the strength to fight off illness.
